EQP-TCVR

Key Features and Benefits

- Power and audio to transceivers
- Remote monitoring from the EQUIP base station
- 5 GHz license free radio band
- Single CAT5/6 cable to EQUIP Base
- Centrally powered from the EQUIP Base Station
- Site Survey Mode for transceiver placement
- 40 Wireless headsets per system
- Status LEDs

The EQUIP™ wireless system operates in the 5 GHz band and provides exceptional audio quality with low noise and excellent radio propagation even in challenging RF environments.

Description

The EQUIP-TCVR is a digital remote transceiver for the EQUIP wireless intercom system, connecting to the EQUIP-WH all-in-one headsets to the EQUIP-BASE base station. Up to four of the rugged, wall mountable transceivers can be connected to a single base station to ensure maximum coverage range.

Operation

The EQUIP-TCVR is an omni-directional 5 GHz transceiver that provides connection for up to 40 wireless EQUIP headsets. Each transceiver is controlled and monitored by the EQUIP base station.

Durability

The EQUIP-TCVR is IP53 rated for wet weather or dusty conditions, making it ideal for outdoor environments.
